

Elevating and Amusement Devices Safety Program	Ref. No.: 538/19
ADVISORY	Date: January 24, 2019

Subject: *Pre-Examination Checklist for Amusement Devices, Waterslides and Go-Karts.*
Distribution: TSSA website - Amusement Devices Advisory Council – Amusement Devices Renewal Package

Background:

In an effort to work with industry to be more prepared for the inspection process and reduce the number of orders issued by the inspector, TSSA with consultation from the Advisory Council created Pre-Examination checklists listing items that need to be verified during the inspection process.

1. Duty of a licence holder Ontario Regulation 221/01 (Amusement Devices)

14. (1) A licence holder shall ensure with respect to each amusement device operated by the licence holder that,

(a) the device is operated in accordance with this Regulation, the technical dossier filed with the director and the manufacturer's instructions, where applicable, relating to the device;

(b) before the device is opened to the public each day, it is inspected and tested in accordance with the technical dossier and manufacturer's instructions, where applicable, relating to the device;

(c) a record of each inspection and test that is carried out on the device is kept in a log book. O. Reg. 221/01, s. 14 (1).

This advisory is to inform industry of the new requirement to complete a pre-examination checklist of the amusement device prior to requesting a periodic/initial inspection.

2. Operating an Amusement Device in Ontario

- A pre-examination checklist shall be completed by the mechanic for each device to ensure that it complies with the technical dossier, including device manuals, safety bulletins and alerts.
- The completed checklist shall be presented to the inspector prior to starting the inspection

Note: These changes are in place for all Amusement Devices, Waterslides and Go-Karts.

Inflatable and zip lines are not included at this time.

For copies of the pre-examination checklist, please refer to the link:
